

POLICY TO ACTION

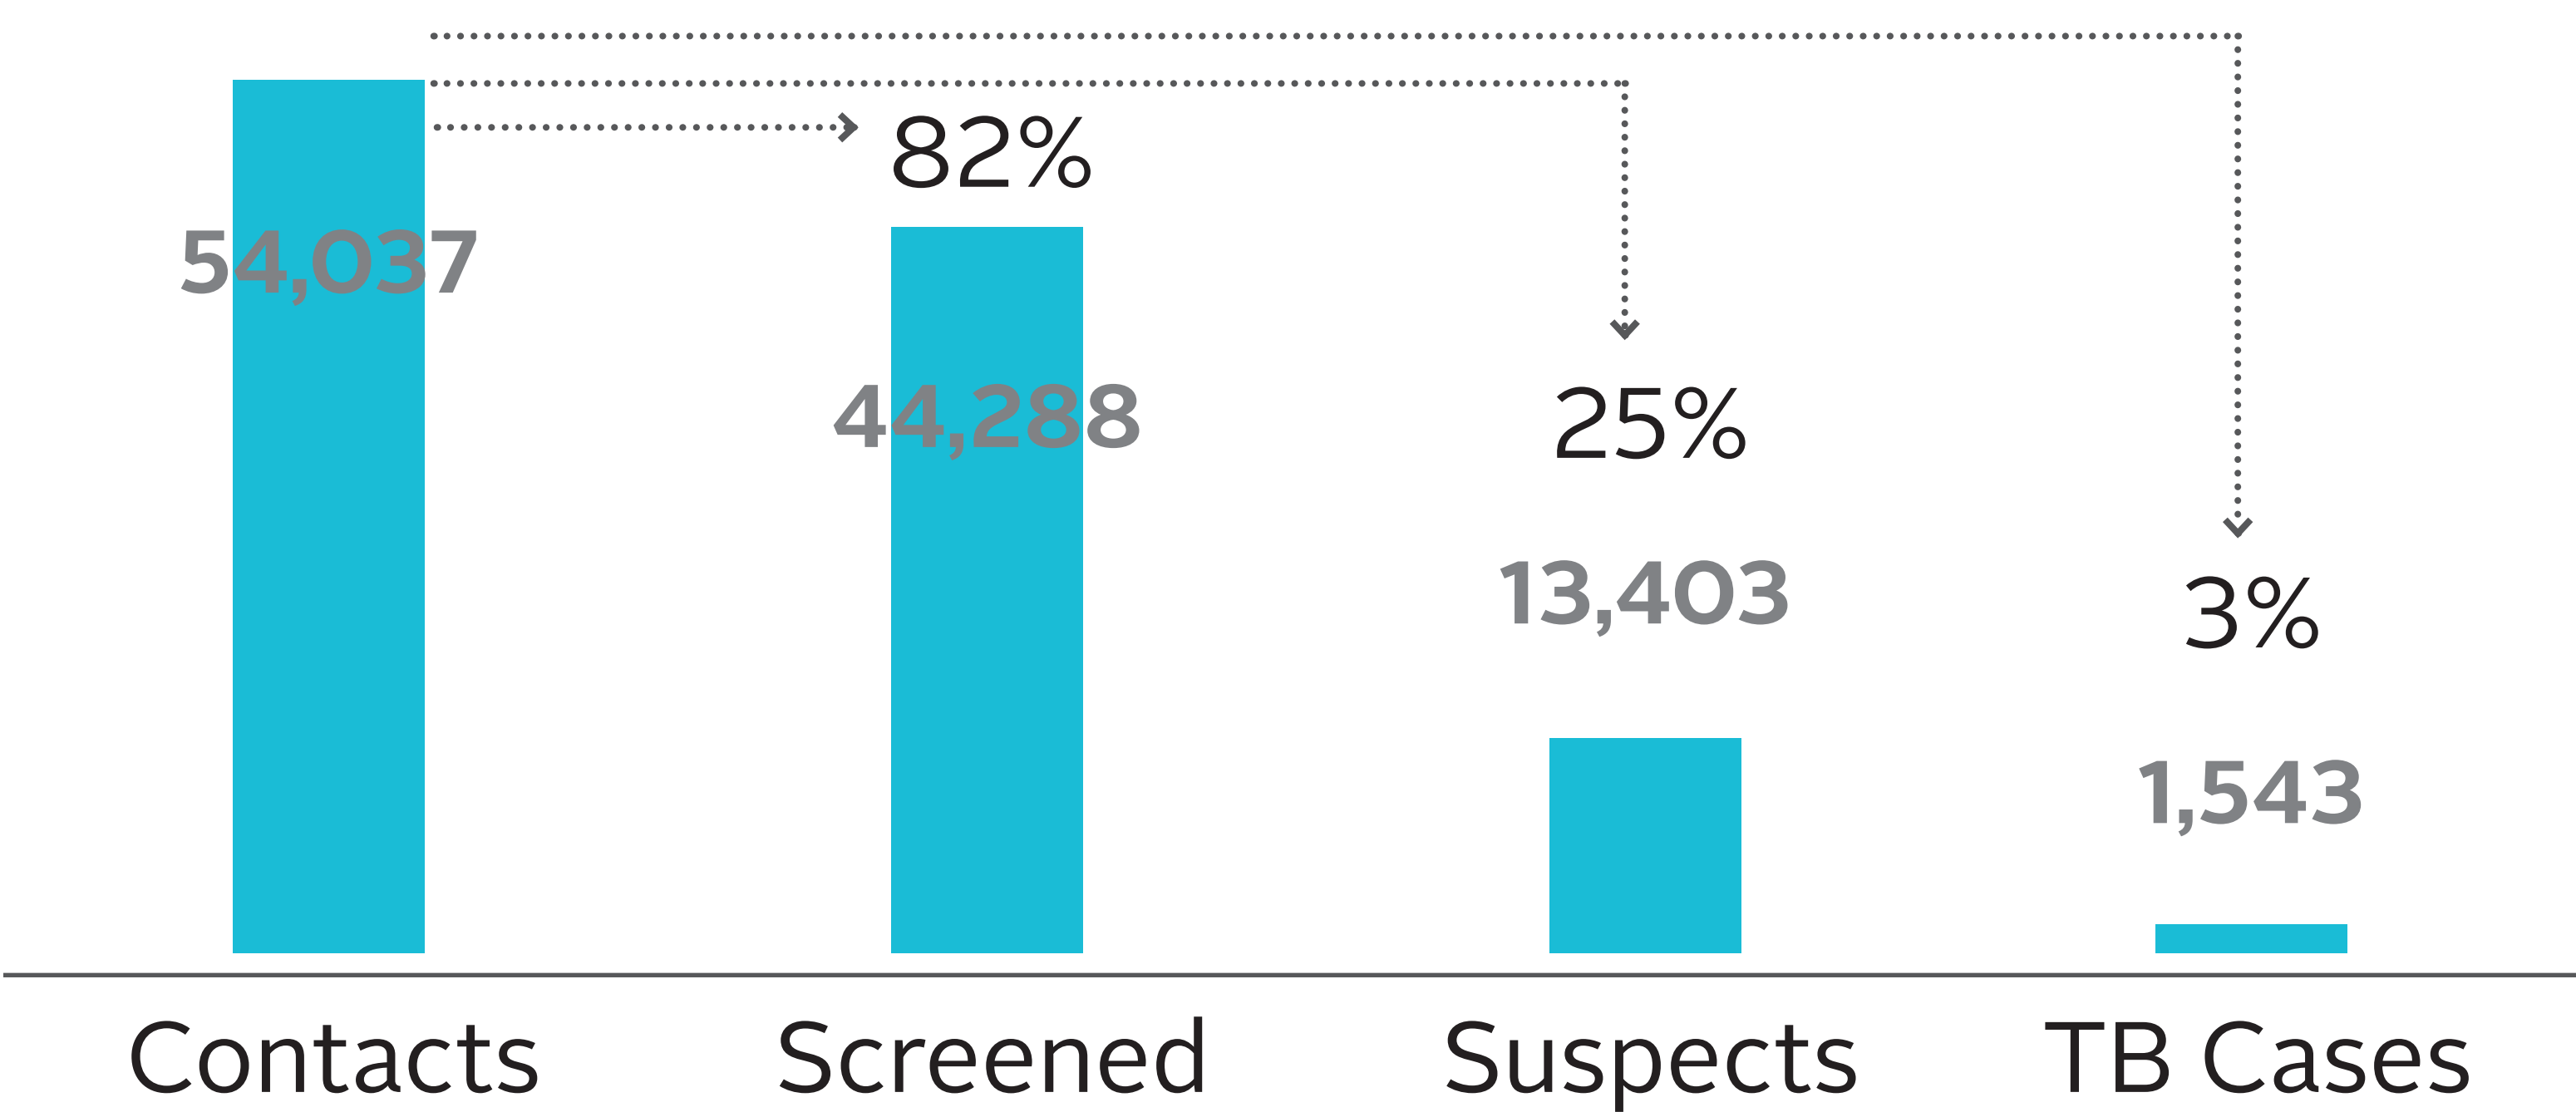

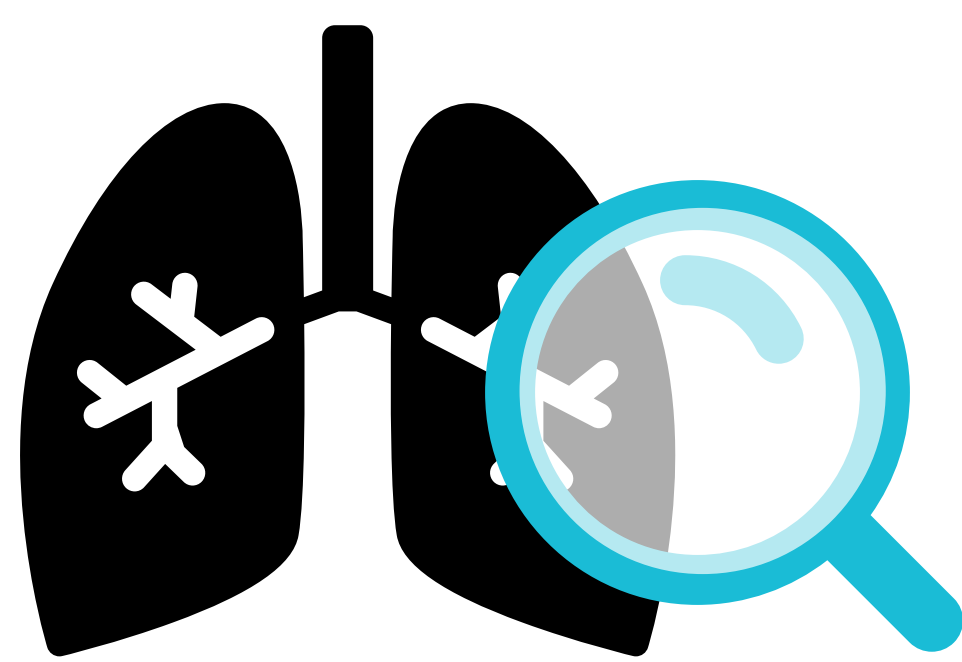

Find the Hard To Reach Population & the Missing TB Cases

Challenge TB in Cambodia

TB Case notification rate: 
General Population vs. Close Contacts of TB Patients **(Jan 16-Jun 17)**

TB case detection via contact investigation
(Jan 16-Jun 17)

In 18 months, over 3,000 children who live with a TB patient started Isoniazid Preventive Therapy through this program, including through a unique community-based initiation approach.
