

Challenge TB in Zimbabwe

Targeted Screening

Finding TB cases in high-risk communities

TB Case notification rate: 
General Population vs. High-Risk Communities (**March -June 17**)

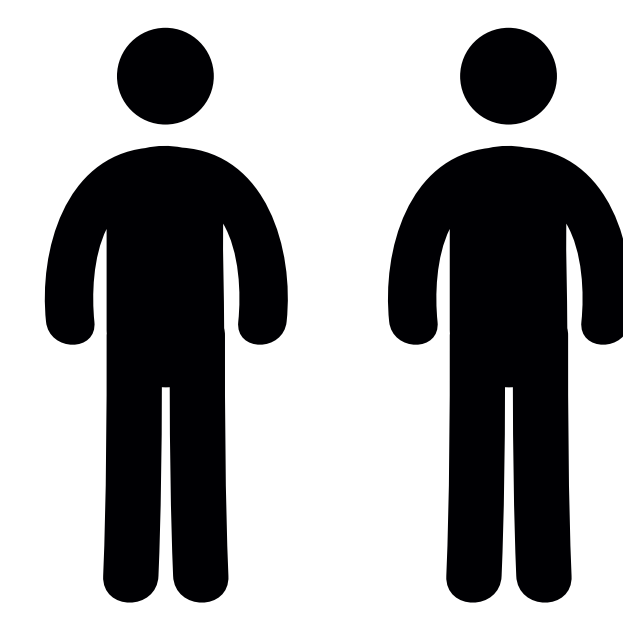

General population

VS

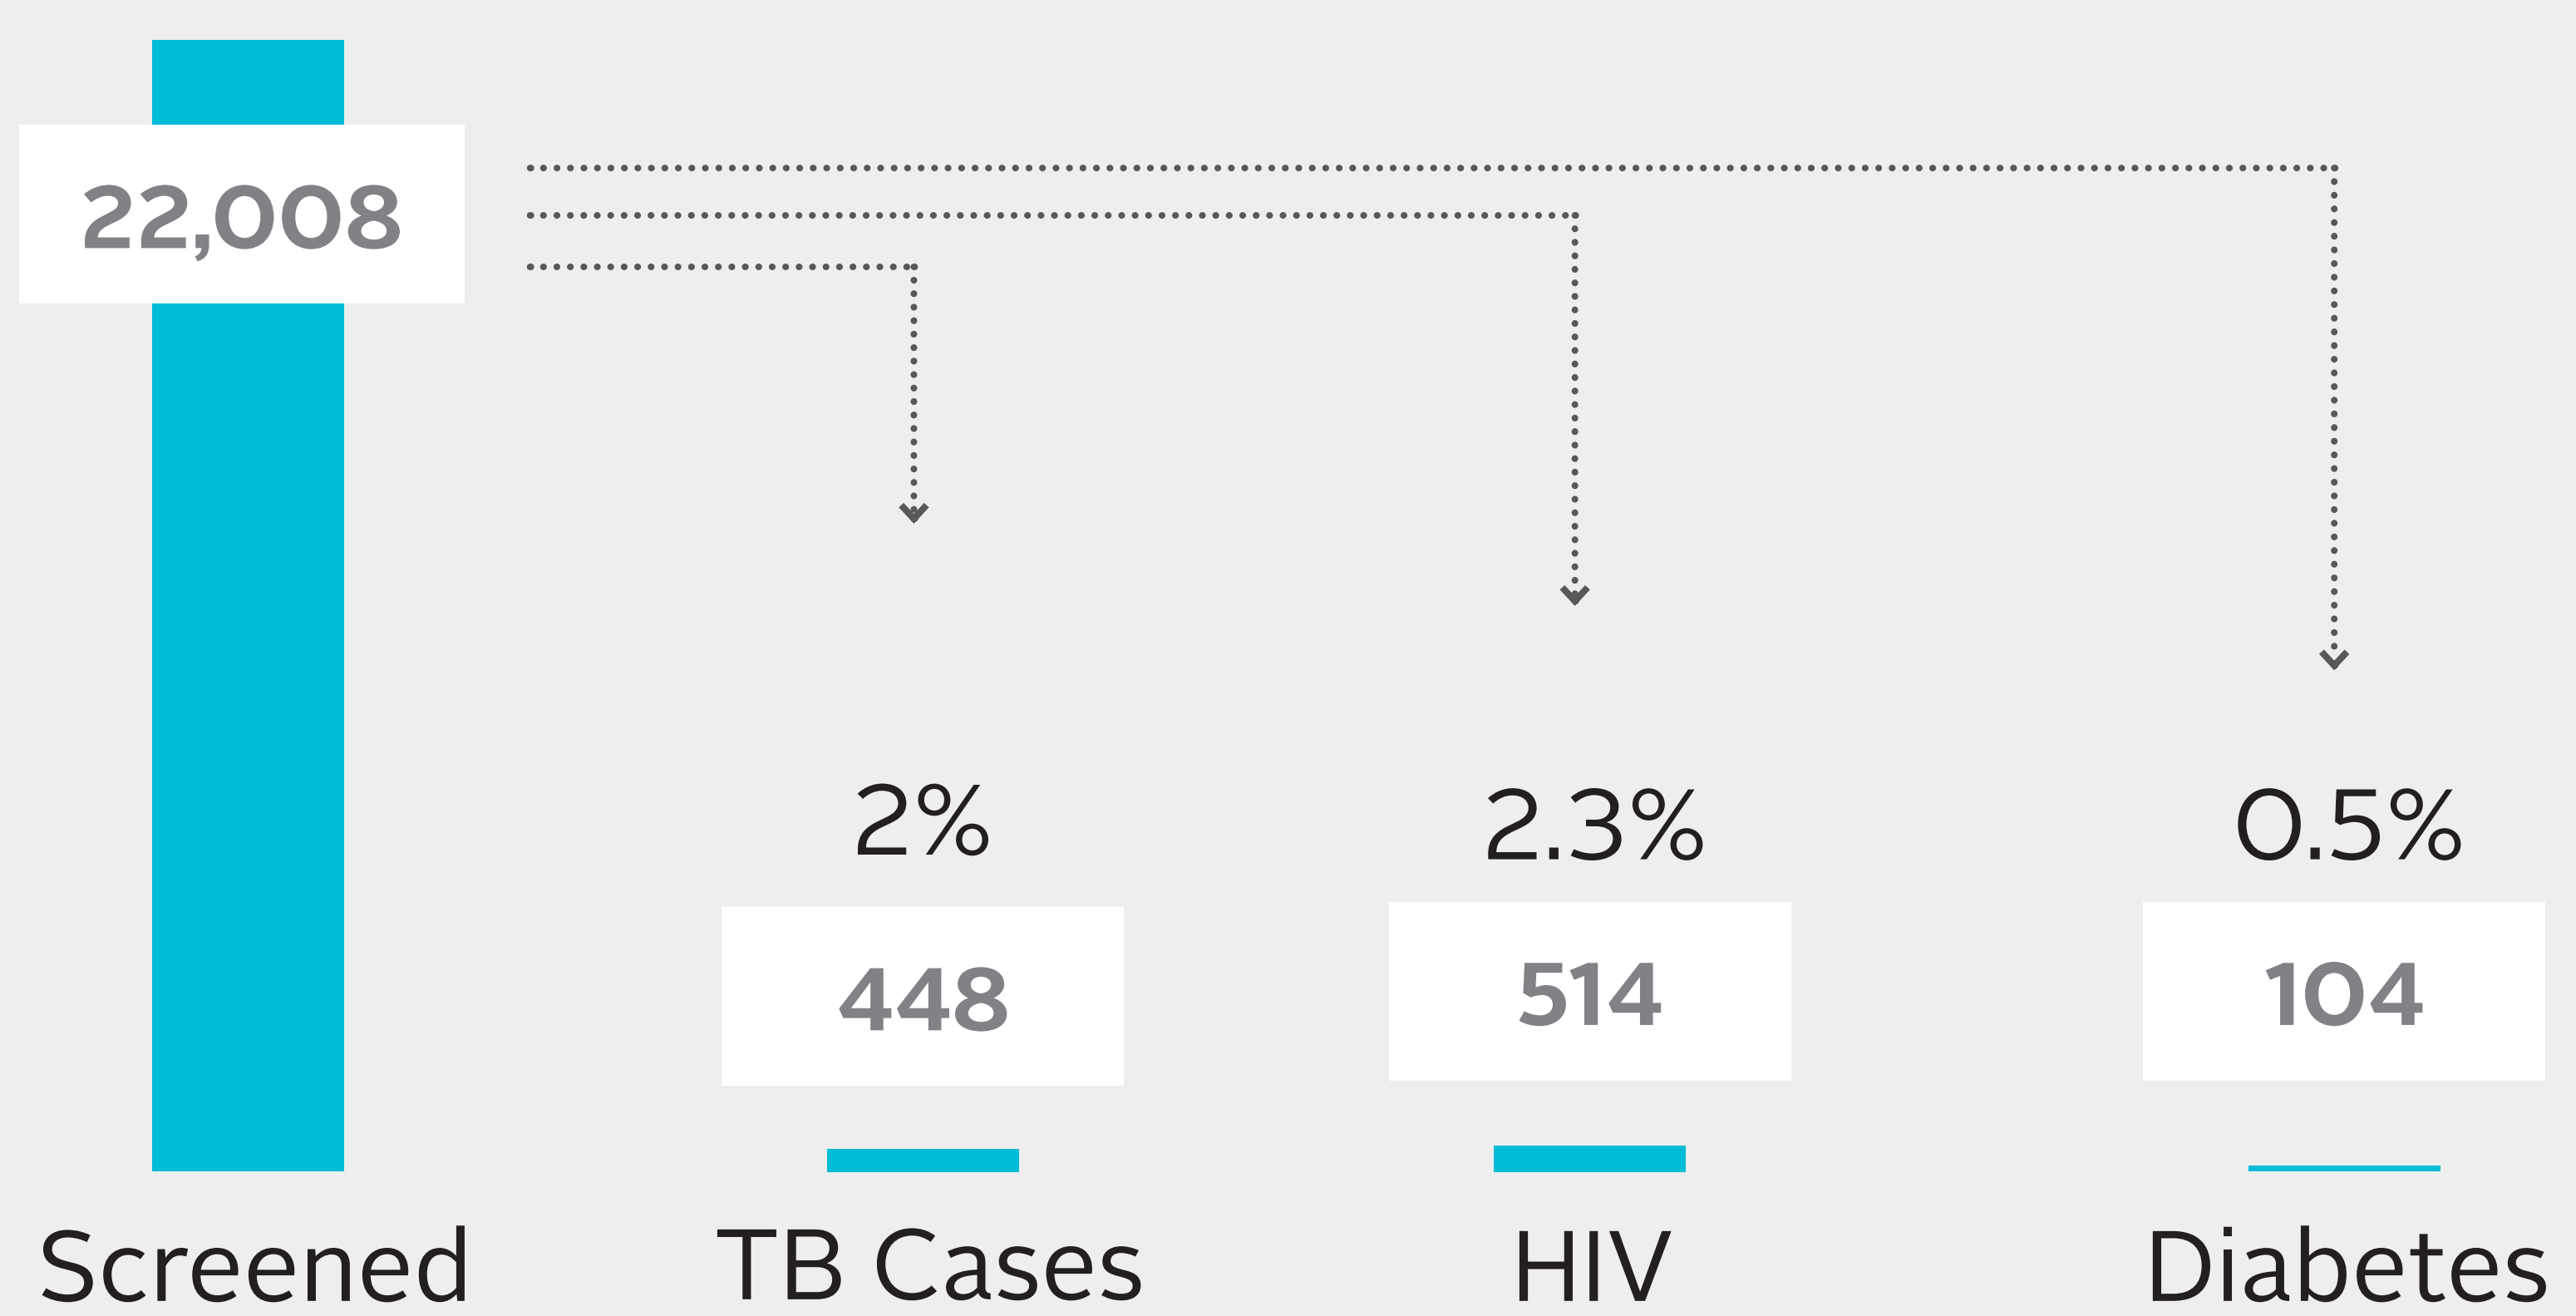

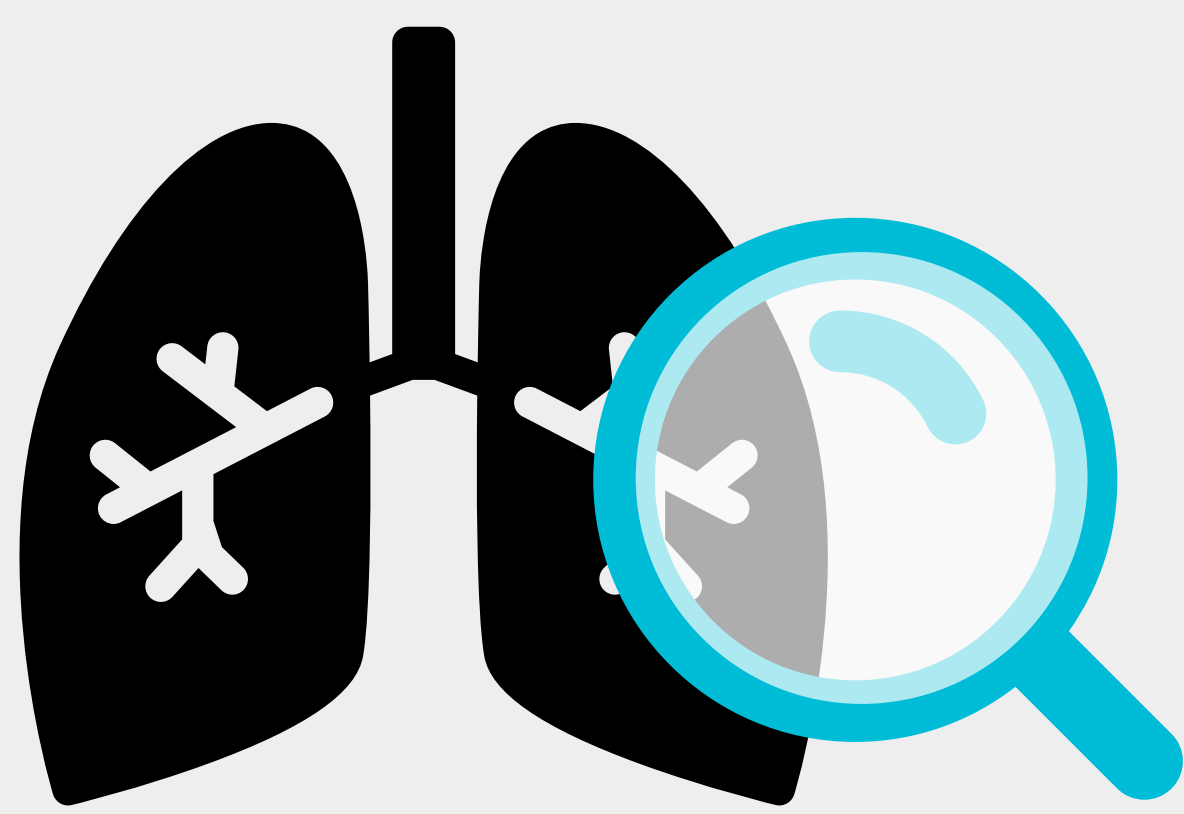

High-risk people are

**twice as likely
to have TB** 

compared to the general population

**TB case detection using
mobile X-ray trucks for
targeted screening
(March-June 2017)**

In addition, 514 and 104 newly diagnosed HIV and Diabetes patients respectively were identified and linked to care.
